## PROFESSIONAL EXPERIENCE

---

### HSE Officer

Farzana Trading LLC — Dubai, UAE

Oct 2024 – Present

- Develop, maintain, and update documentation for FSSC 22000 and ISO 22000 certification, ensuring alignment with international food safety standards.
- Coordinate and lead external and client audits, consistently achieving high audit scores through meticulous preparation and systematic compliance.
- Oversee daily cleaning and sanitation operations to ensure adherence to hygiene protocols and regulatory requirements.
- Participate in supplier vetting processes to ensure quality and compliance with company standards.
- Conduct daily inspections of warehouse facilities, enforcing FIFO/FEFO principles to maintain product quality and minimize waste.
- Design and deliver staff training programs on hygiene, safety protocols, and food handling best practices, including fire safety, emergency evacuation, PPE usage, and incident reporting.
- Lead incident investigations, conduct root cause analysis for safety incidents, and implement preventive measures to enhance workplace safety culture.
- Implement corrective actions based on audit findings, inspection reports, and compliance reviews.

### Quality Control Inspector

Yaumi International Bakery — Dubai, UAE

Jan 2024 – Aug 2024

- Approved or rejected raw materials, packaging materials, labeling, and finished goods.
- Maintained documentation for ISO and HACCP systems.
- Reviewed production records for traceability and mock recall accuracy and completeness.
- Conducted daily GMP tours and reported findings to relevant departments; verified CCPs and raised non-conformity reports.
- Determined root causes of quality issues and advised on prevention and recurrence control.
- Carried out monthly safety inspections per QHSE policy and reported deviations.
- Monitored process flow to ensure established standards were consistently met.
- Collected samples for monthly microbial testing (water, air, finished goods, food/non-food contact surfaces, and hand swabs).
- Inspected product loading at the dispatch area for vehicle condition, cleanliness, and product temperature.
- Submitted monthly reports to the Quality Manager covering non-conformance, laboratory analysis, and material receiving/loading.

### **Quality Controller cum Production In-Charge**

*Hassani Group of Companies — Dubai, UAE*

Dec 2020 – Jan 2023

#### **Production In-Charge (Jan 2022 – Jan 2023)**

- Participated in production planning, ensuring coordination of materials and resources with the production plan.
- Prepared and maintained daily, weekly, and monthly production reports for the General Manager.
- Ensured production targets were consistently met by optimizing machine speed and efficiency.
- Coordinated with external laboratories, pest control services, water tank services, and calibration teams.
- Generated maintenance requests and followed up to resolution.

#### **Quality Controller (Dec 2020 – Jan 2022)**

- Conducted physical and chemical tests; evaluated Modified Atmosphere Packaging (MAP), vacuum packaging, and sensory tests.
- Inspected and received raw materials and packaging materials.
- Monitored production and expiry dates and quality of raw, packing, and finished materials throughout production.
- Compiled, reviewed, and approved product nutritional information, specifications, and labeling.
- Ensured worker hygiene and implementation of hygienic practices on the production floor.
- Maintained documentation for ISO 22000:2018, HACCP, and HALAL manuals; supported HACCP, ISO 22000, and HALAL & DM audits.
- Tracked shelf-life reference samples through to expiry.

### **QHSE Officer**

*Straightpath International School — Dubai, UAE*

Jun 2019 – Oct 2020

- Supported implementation of quality, health, safety, and environmental (QHSE) policies and procedures across school operations.

### **Hygiene Officer**

*Lazza Ice Cream, Cream Packs Pvt. Ltd —*

Sep 2016 – Nov 2018

- Monitored hygiene and food safety compliance within production operations.
